OceanWanderers.com is a personal web site run by Angus Wilson, that is dedicated to the exchange of information about bird identification, migration, systematics and conservation, with special emphasis on seabirds and shorebirds. Whales, Dolphins and Porpoises: Mark Carwardine, Martin ... As with any guide published so long ago (before the mid-2000s), it is now sorely outdated (it doesn't include newly described species such as Omura's whale or Perrin's beaked whale, among others. Whales, Dolphins, and Porpoises: A Natural History and ... In this superb overview of the cetacean world, Professor Berta marshals a huge collection of solid, up to date information, from whale biology and evolution to feeding techniques to range maps and field marks, with 2-4 page descriptions of 89 known species.

Porpoise - Wikipedia Porpoises are a group of fully aquatic marine mammals that are sometimes referred to as mereswine, all of which are classified under the family Phocoenidae, parvorder Odontoceti (toothed whales). There are seven extant species of porpoise. They are small toothed whales that are very closely related to oceanic dolphins.The most obvious visible difference between the two groups is that porpoises. Dolphin - Wikipedia Dolphins are a widely distributed and diverse group of aquatic mammals.They are an informal grouping within the order Cetacea, excluding whales and porpoises, so to zoologists the grouping is paraphyletic.The dolphins comprise the extant families Delphinidae (the oceanic dolphins), Platanistidae (the Indian river dolphins), Iniidae (the new world river dolphins), and Pontoporiidae (the. List of Marine Mammal Species and Subspecies - Society for ... The Committee on Taxonomy, chaired by Patricia Rosel, produced the first official Society for Marine Mammalogy list of marine mammal species and subspecies in 2010.Consensus on some issues has not been possible; this is reflected in the footnotes. The list is updated at least annually. This version was updated in July 2017.

BBC News - Great whales A guide to the great whales. The fast-swimming sei whale was caught in great numbers in the Antarctic in the 1960s, after the blue, fin and humpback stocks had been overexploited. Orca | killer whale - Facts and information - WDC Orcas are incredibly popular as they are the most widely distributed of all whales and dolphins, found in every single ocean! They are very familiar with their black and white colouring but actually, depending on where they live, have very different appearances, behaviour, ways of communicating and diet. A Guide to Environmental Non-Profits " Mother Jones FACT: Mother Jones was founded as a nonprofit in 1976 because we knew corporations and the wealthy wouldn't fund the type of hard-hitting journalism we set out to do.. Today, reader support makes up about two-thirds of our budget, allows us to dig deep on stories that matter, and lets us keep our reporting free for everyone.

Dolphins Porpoises A Worldwide Guide
